PCA Tech Tips - Tires

THE PRESIDENT'S CORNER

Winter weather is upon us and limited driving time with our Porsches is a good time of year to perform maintenance, "super shine time" or some good old garage time tinkering. The following are suggestions for maintaining your garage queen:

Interior Deep Clean:

- Vacuum the carpet, trunks, and clean the floor mats.
- Clean the seats with appropriate cleaner and coat with a leather conditioner.
- Detail the dash, door panels and interior trim.
- Clean windows and mirrors.

Exterior Cleaning and Detailing:

- Wash. Apply a paint protection (wax, ceramic coating or paint protection of choice).
- Pull wheels to clean and wax or ceramic coat rims, both sides.
- Paint chip repair.

Engine Bay:

- Clean and detail the engine bay.
- Keep a good quality battery tender to keep your battery charged with a very low amperage charge.
- Check all fluid levels.

Tire Maintenance:

- Check the tire tread depth for wear patterns.
- Overinflate your tires to prevent flat spots.
- While tires are off for cleaning, check brake pads and rotors for wear.

Bruce
